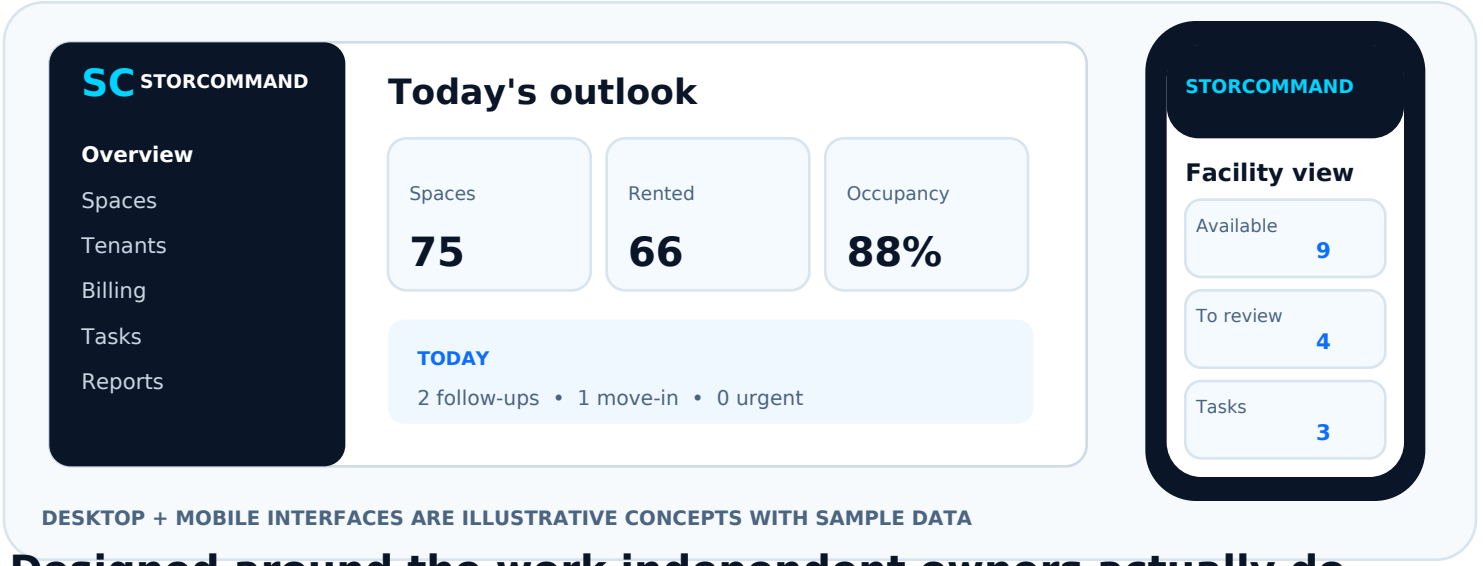
STORCOMMAND
Small Facility. Big Command.

SMALL FACILITY. BIG COMMAND.

A simpler command center for independent storage owners.

Storage ownership should not require an enterprise-sized software operation. StorCommand is being developed to keep spaces, renters, billing and daily priorities in one clear place.



DESKTOP + MOBILE INTERFACES ARE ILLUSTRATIVE CONCEPTS WITH SAMPLE DATA

Designed around the work independent owners actually do

Spaces & availability

Understand the unit mix, rates and openings.

Tenants & leases

Keep renter records and documents together.

Billing & payments

Track charges, receipts and balances.

Tasks & reporting

See follow-ups, trends and key priorities.

BUILT BY A FELLOW STORAGE OWNER

Dan Wigginton | Hillside Storage, Logan, Ohio

Owner experience informs the product. Features remain in development.

dan@wigdigital.com

Everything that matters.

Without everything you don't need.

A focused set of operational capabilities is being developed for small and independent storage facilities, especially those with about 25–150 rentable spaces.

UNIT / SPACE TRACKING

Indoor and outdoor inventory, availability and rates.

TENANTS

Centralized contact details, notes and records.

LEASES

Dates, documents and renter agreements.

BILLING

Recurring charges, statements and ledger.

PAYMENTS

Receipts, balances and payments tracking.

COLLECTIONS

Aging, follow-up workflows and next steps.

REPORTING

Occupancy, revenue and collection trends.

TASKS

Daily work, reminders and open issues.

OWNER DASHBOARD

An at-a-glance picture of the facility.

WHY WE ARE INVITING EARLY OWNERS

We want to hear how you currently run your facility, what takes too much time, and what a helpful, affordable system should do. This is a feedback and preview invitation, not a fully launched software offer.
